Tamil Nadu, India - 629160

PROFESSIONAL SUMMARY

M.Sc. Artificial Intelligence student with a robust foundation in Python and C++, complemented by hands-on experience in developing AI-driven applications, achieving a 20% increase in efficiency in project outcomes. Skilled in machine learning frameworks (Scikit-learn, TensorFlow, PyTorch) and REST API development, with a track record of delivering end-to-end projects like an AI health-risk prediction system and a fitness management platform. A fast learner with strong teamwork, communication, and problem-solving skills, eager to apply AI/ML expertise to real-world engineering challenges.

CORE SKILLS

Programming Languages: Python, C++
Frameworks: Scikit-learn, TensorFlow, PyTorch, FastAPI/Flask
Databases: MySQL, MongoDB
Tools: Visual Studio, Git/GitHub
Soft Skills: Teamwork, Communication, Adaptability

EDUCATION

Bachelor of Science in Computer Science – CGPA:	2023 - 2026
Malankara Catholic College, Mariagiri, Kaliakkavilai.	
Master of Science in Artificial Intelligence – CGPA:	2026 - 2028
St. Joseph's College (Autonomous), Thiruchirappalli.	

PROJECTS

FIT MENTOR – Fitness Management Web Application

- Technologies:** HTML, CSS, JavaScript, Bootstrap, PHP, MySQL
- Built a full-stack fitness platform with workout tracking, BMI calculation, and personalized workout/diet plans.
- Implemented secure authentication, profile management, and progress tracking, and developed an admin dashboard for user and plan management.

HEALTHAI – AI-Based Health Risk Prediction System

- Technologies:** React, Python (Fast API/Flask), Scikit-learn, MongoDB
- Developed an AI healthcare application predicting health risks using a Random Forest model trained on health parameters.
- Architected a four-layer system (Presentation, Application, Predictive Analytics, Data Persistence) with secure REST APIs connecting the frontend, ML model, and database.

INTERNSHIP & COURSES

MERN STACK | Srishti Innovative Educational Services Kazhakkootam, Trivandrum

- Completed a two-week internship focused on MERN stack web development and gained practical exposure to building web applications.
